5 - Point Questions

Read the following text and answer the questions 17-21:

If I was asked to describe an ideal room, I would most certainly imagine a room that I wouldn't have to share. It would be very extravagant and untidy. The windows would never be clean because I would always paint something on them to remind me of all the places I've been to.

I have always wanted less furniture and more pleasant things like a hammock or a special container for my collections of rocks, shells, napkins and dry plants.

My pets, which would be many, would also have a place in my room, but there wouldn't be any electronic devices, and of course, no alarm clocks!

My diving fin, my mask and snorkel would be the only possessions I would have in my drawers.
